Forum Young Researchers

- **Community-led initiative** that empowers young scientists and researchers new to the field of homeopathy.
- **Offering Professional Development:** Skills, confidence and connections essential for thriving in competitive landscapes.
- **Mentorship opportunities:** Insight from senior academics who are deeply invested in fostering new talent.

Our Mission

- **Promote interdisciplinary exchange:** Engage fundamental and clinical researchers in constructive dialogues.
- **Encourage ongoing progress:** Serve as a forum for «work in progress», where ideas and projects can evolve through discussion and feedback.
- **Facilitate networking:** Enable young scientists to form meaningful connections within the research community.

Key Features

- **Interactive environment:** FYR offers an open platform to share insights, learn from peers and mentors, and explore innovative ideas.
- **Inclusive approach:** We offer hybrid formats to increase accessibility and inclusivity.
- **Recognition and Visibility:** A unique chance to showcase ongoing work to a supportive yet critical audience.

Getting involved

- **Take part in or initiate events:** See us in Thessaloniki or suggest next events.
- **Help organisation:** Experience the FYR network and help to bring our events to live.
- **Support financially:** Help to build financial sustainability to support young researchers with travel grants to reduce participation costs.
